

POSTNOVA

Trainings and Seminars 2023

TF2000 Thermal FFF
The Ultimate Polymer Analyzer

AF2000 MultiFlow FFF
The Ultimate Protein Analyzer

EAF2000 Electrical AF4
The Ultimate Virus/Vesicle/Protein Analyzer

CF2000 Centrifugal FFF
The Ultimate Particle Analyzer

Postnova Trainings and Seminars 2023

Postnova does not only supply complete solutions for Field-Flow Fractionation - Light Scattering systems but also aims at providing the knowledge needed to operate these systems and get results from the very beginning. Standard user training courses are offered on a regular basis for all three main FFF-Series in our European Application Center (EAC) in Landsberg near Munich. We recommend to attend these Standard Seminars within one month before or after installation of a new FFF-LS system. Our experience shows that the user saves a lot of time in getting started with the technology and in generating first results as well as avoiding errors in system handling when this standard user training is completed.

Contents of the Standard FFF User Seminar: Talks about FFF and Light Scattering with a focus on theory and basics. Hands-on experience in the laboratory using the FFF and detectors systems. Learn how to operate the systems, develop a method, evaluate data and calculate molar mass and particle size. Learn how to calibrate the instrument and how to perform instrument maintenance as well as basic trouble shooting.

For the Standard Training courses the following dates are available:

When?	What Course?	Who?
January, 17-18 - Fully Booked -	FFF User Training	Customer and User
February, 7-8	FFF User Training	Customer and User
March, 14-15 - Fully Booked -	FFF User Training	Customer and User
April, 4-5	FFF User Training	Customer and User
May, 9-10 - Fully Booked -	FFF User Training	Customer and User
June, 20-21	FFF User Training	Customer and User
July, 18-19	FFF User Training	Customer and User
August, 8-9	FFF User Training	Customer and User
September, 12-13	FFF User Training	Customer and User
October, 17-18	FFF User Training	Customer and User
November, 7-8	FFF User Training	Customer and User
December, 5-6	FFF User Training	Customer and User

Regarding the seminar language, there are both German and English courses available. Please state language preference in your registration.

We also offer regular Advanced Training courses for customers who already have significant experience (6-12 months) in FFF-LS. For possible dates please inquire via seminars@postnova.com.

Please reserve your seat as early as possible because the number of participants per training is limited to ensure maximum access. For registration please contact us via seminars@postnova.com!
